INSTRUCTIONS FOR FILING IN A MULTI-DEFENDANT CASE IN THE DISTRICT OF MONTANA

For multi-defendant cases, it's **EXTREMELY** important to click the box to the **right** of the desired case to expand the list so that all defendants appear as shown below. Once the list has expanded, click the box to the **left** of the defendant that the filing relates to, then click Next. **Do not select all defendants, or simply select the main case number, if the filing only pertains to one defendant, select only the defendant the filing relates to.** Doing so will unnecessarily put the filing in the case for every defendant when it only relates to one defendant. If motions pertaining to only one defendant are filed in the cases of all defendants, the joinder functionality will not function if a co-defendant attempts to join in a motion.

Note: If the filing pertains to all defendants, then select all defendants by clicking in the box to the left of the case number.
