Brand Name or Equal (APR 2013)

- (a) One or more items called for by this solicitation have been identified by a brand-name-or-equal product description. Offers offering equal products will be considered for award if these products are clearly identified and are determined by the judiciary to contain all of the essential characteristics of the brand-name products referenced in the solicitation.
- (b) Unless the offeror clearly indicates in the offer that the offer is for an equal product, the offer will be considered as offering a brand-name product referenced in the solicitation.
- (c) If the offeror proposes to furnish an equal product, the brand name and model or catalog number, if any, of the product to be furnished shall be inserted in the space provided in the solicitation. The evaluation of offers and the determination as to equality of the product offered will be based on information furnished by the offeror or identified in the offer, as well as other information reasonably available to the purchasing activity. The purchasing activity is not responsible for locating or obtaining any information not identified in the offer and reasonably available to the purchasing activity. Accordingly, to ensure that sufficient information is available, the offeror shall furnish as a part of the offer:
