

How to set Windows 10 Default Browser Settings

To set Mozilla Firefox as the default browser (must have Firefox installed first):

1. Right-click the **start** button from the bottom-left corner of the screen.
2. From the menu that appears, click **control panel**.
3. On the **control panel** window, click the **programs** category.
4. From the right pane of the opened **programs** window, click **default programs**.
5. On the **default programs** window, click **set your default programs**.
6. From the list of programs on the left, select Firefox.
7. From the right pane, click **set this program as default**. This will set all browser activity to Firefox.
